

6th European CAF Users Event Rome, 14 November 2014

2014 Italian
Presidency of the Council
of the European Union

In 2003 the first European CAF Event was organised during the previous Italian Presidency of the EU. Four editions (Luxembourg 2005, Portugal 2007, Romania 2010, Norway 2012) and 11 years later the Italian EU Presidency, supported by the European CAF Resource Centre at EIPA, has decided to host this years **European CAF event** again.

With over **3700 CAF users** registered from **45 countries** the CAF dynamic is alive and kicking as never before. In these 11 years the model, its users and the dynamics have been through a whole evolution. The wonderful city of **Rome** will be the theatre in which the dynamic of the European CAF will perform this year.

This year's topic is **"Impact and Results with CAF"**. Various keynote speakers and practical cases will demonstrate the benefit, the practicalities and the lessons learnt of working

with the CAF. Topics as social responsibility, administrative capacity building and the link between CAF and other sources of assessment and evaluation will be highlighted, etc. Special attention is given to the achievements of CAF in the field of education (school, universities, training institutions).

The places are limited and the 200 available seats are nearly fully booked. If you have an interest in participating at the Event, **get in contact** with the Italian organisers (caf@formez.it) or with your national CAF Correspondent (the contact details for your country can be found [here](#). (www.eipa.eu/CAF >> national correspondents)

For more details click [here](http://qualitapa.gov.it). (<http://qualitapa.gov.it>)

Hope to meet you all in Rome!
